### Office Order

For proper monitoring of progress, BRLPS (Jeevika) has been focusing heavily on digitization for several months at all levels. It has been observed that most of the indicators are not being digitized timely and reports are not being prepared through MIS. As of now, the CBOs profiles (SHG, VO and CLF) are being digitized on regular basis in all the districts whereas, pace of digitization of Aadhar data is slow in some districts. Digitization in following spheres also requires to be accelerated:-

- Mapping of SHGs to VOs.
- Mapping of VOs to CLFs.
- VO and CLF transactional data.
- The SHGs Saving a/c and credit a/c.
- The PG profiles and member details.
- The bank account of VOs and CLFs.
- Cadre profiles.

Keeping in view the importance of the MIS for tracking the progress and conducting MIS-based reviews at all levels, regular and timely punching of data in MIS is of utmost importance. All responsible functionaries are required to ensure that the data is regularly punched in MIS with particular emphasis on above mentioned indicators. It is important to improve pace of digitization which would be reviewed at SPMU level. Districts would be appropriately dealt with on basis of their performance.

For any technical assistance, MIS team at SPMU will extend required support to the districts.

(Balamurugan D.)
