Office Order

The data centers have been established in all the districts for punching of data in MIS vide office order 1286 dated 06.08.2015. Such data centers have been instrumental in the digitization process across state and the result has been encouraging. As the scale is growing and interventions are also increasing, it has been observed that the process of digitization is getting delayed. Preparation of data is done at block levels, shared at district level and finally gets punched if found error-free, else the process is repeated and lot of time gets wasted.

In order to minimize the delay in data preparation, its validation, correction and punching in MIS, it is important to have the operators at the block level. It has already been communicated vide office order 3454 dated 28.11.2017 to hire one MIS executive/DEO with laptop/desktop for each block and also to provide power backup facility. This will largely reduce the delay and digitization will be at faster rate. Districts are required to place the MIS executive/DEOs at block level by 31st May 18 and start the data entry work at BPIU from 1st June 2018.

The payment of honorarium to MIS executives/DEOs would be done by concerned BPIU. The DPCU will coordinate with BPIUs in this regard.

(Balamurugan D.)
