# INVITATION OF BID UNDER LIMITED TENDERING FOR HIRING OF AGENCY TO PROVIDE MOBILE DEVICE MANAGEMENT (MDM) SOFTWARE (TWO ENVELOPE) UNDER NON-CONSULTING SERVICES

Sul	M	VITATION OF BID FOR HIRING OF AGENCY TO PROVIDE MOBILE DEVICE ANAGEMENT (MDM) SOFTWARE FOR A PERIOD OF TWO YEARS FOR PROXIMATELY 4000 TABS.
1.	provid	Rural Livelihoods Promotion Society (BRLPS) invite bids for hiring of agency to e Mobile Device Management (MDM) software for a period of two years as per the ing details and attached Terms of Reference (ToR) as Appendix-II:
	SI. No.	MDM Specifications
	1	MDM provider must support remote and silent pushing and installation of organization- provided mobile apps.
	2	MDM solution must provide app usage analytics and reporting, App usage report with drill down capability, Device On/Off, Location History reports and Portal User Activity Report.
	3	MDM provider should support remote locking of devices.
	4	MDM provider should allow remote wiping of device data.
	5	MDM must enable real-time device location tracking and view on map feature
	6	MDM provider should provide geofencing capabilities with configurable rules.
	7	MDM solution should support setting and enforcing password complexity rules.
	8	MDM must provide the ability to enable or disable device cameras.
	9	MDM should allow app blacklisting and whitelisting.
	10	MDM provider must support kiosk mode (single and multiple app mode).
	11	MDM must support policy-based grouping of devices.
	12	MDM provider must offer role-based access control (RBAC).

## Bihar Rural Livelihoods Promotion Society State Rural Livelihoods Mission, Bihar

1° Floor, Vidyut Bhawan - II, Bailey Road, Patna- 800 021; Ph.:+91-612-250 4980; Fax:+91-612-250 4960; Website:www.brlp.in

13	MDM solution should maintain a real-time device inventory.			
14	MDM must allow control of Wi-Fi, Bluetooth, and hotspot settings.			
15	MDM must allow scheduling or managing OS updates.			
16	MDM provider should offer custom branding options.			
17	MDM provider must support bulk device enrolment.			
18	MDM provider should support broadcasting notifications to users.			
19	MDM must allow enforcement of web URL restriction.			
20	MDM solution should monitor login log out history.			
21	MDM must support dynamic policy updates without re-enrolment.			
22	MDM must allow restriction of USB file transfers.			
23	MDM provider must allow monitoring of battery and data usage.			
24	MDM solution should support SIM lock or network restriction.			
25	MDM must allow remote reboot of devices.			
26	MDM should support action-based triggers (e.g., out of geofence, etc).			
27	MDM provider must support remote wallpaper and app pushing.			
28	The bidder has to provide Mobile Device Management (MDM) App managed through cloud-based server services			
29	MDM solution must provide secure file and content distribution.			
30	MDM provider should support schedule-based app publication.			
31	MDM must allow secure local backup and restore options.			
32	MDM should offer detailed device-wise reports.			
33	MDM should also provide a provision to generate custom reports			
34	MDM solution must support configurable device location tracking intervals, including options for 1, 5, 15, 30 minutes, and 1 hour.			
35	MDM can manage app store/ applications, blacklist, whitelist apps, publish custom app in real time, manage app versions.			
36	MDM solution must display the top 3 or top 5 most used apps at the group level within the admin UI dashboard.			
37	The end user shall not be permitted to download apps from the internet.			
38	MDM should be 100% Made In India.			
39	The MDM shall lift/remove the data fetch restriction on "non-resettable device identifiers" (i.e. IMEI no., Device ID, Serial no., Android ID etc.).

### Appendix-II ToR for procurement of Mobile Device Management Software

#### **Background**

Bihar Rural Livelihoods Project (BRLPS) is designed by Government of Bihar to address rural poverty in the state. The project aims at enhancing social and economic empowerment of the rural poor by creating self-managed community institutions and enhancing income through sustainable livelihoods generation. Currently, JEEViKA is implementing in 534 blocks with support from staff and cadres spread across the state.

BRLPS is operational in all the blocks of Bihar. More than 1.4 Crore rural poor families have been organized in more than 10.65 lacs SHGs, more than 70K Village Organizations (VOs) and more than 1600 Cluster Level Federations (CLFs) and the numbers are still increasing.

Currently, BRLPS has rolled out more than 50 Apps, ERPs, web portal etc. to monitor the interventions across themes in the entire State. These applications are used by staffs and cadres as per their roles and responsibilities. BRLPS has provided Tablets (Tabs) to its field functionaries Area Coordinators and Community Coordinators to ensure timely digitization of data and monitoring of the interventions. Therefore, there is need to have MDM on each of those devices to ensure effective utilization of devices.

#### **Objective**

The objective is to hire an agency to provide the MDM for Tabs/Mobile devices and its maintenance for the period defined.

#### Current status: -

BRLPS has provided Tabs to Its field functionaries staffs specifically ACs and CCs at the Block level in the State of Bihar. The devices are being used by these users on daily basis. The need of the organization is to have a centralized solution like MDM to manage the Tabs remotely with features which allows the organization to ensure effective utilization of these tabs. Around 4000 tabs are used by the staffs. All the tabs are android based. The brand of the tabs will vary so the MDM should be able work on multiple brands like Samsung, Lenovo, etc. with android operating system. The number of tabs will be around 4000 functioning across State of Bihar. The number may increase or decrease so the unit rate of MDM to be also quoted in the bid.

1st Floor, Vidyut Bhawan - II, Bailey Road, Patna- 800 021; Ph.:+91-612-250 4980; Fax:+91-612-250 4960; Website:www.brlp.in

The minimum requirement of Mobile Device Management software as mentioned below:-

MDM provider must support remote and silent pushing and installation of organiz provided mobile apps.  MDM solution must provide app usage analytics and reporting, App usage report wit down capability, Device On/Off, Location History reports and Portal User Activity Re  MDM provider should support remote locking of devices.  MDM provider should allow remote wiping of device data.  MDM must enable real-time device location tracking and view on map feature MDM provider should provide geofencing capabilities with configurable rules.
